**ABSTRACT**

The purpose of this academic work is to analyze the case of case No. 00444 - 2015 - 0 - 1001 - JR- LA - 01 Process that is initiated by the former worker Rios Uñapilco Marleni against the provincial municipality of Cusco. Deficiencies in hiring, as well as the improper use of modal contracts, such is the case of specific service contracts, determines the right of the worker to be restored to his job.

In this sense, the existence of simulation in hiring is known, whose purpose in practice is to prevent workers from accessing their labor rights such as constitutional rights to work, due process and adequate protection against arbitrary dismissal.

Keywords: resposition, unjustified arbitration dismissal
